Bullet factories

Bullet factories will have family price from now on. This means, family members can buy bullets at different price. For all other gangsters, maximum price of bullets will be 5,000\$

Rebirth System

New rebirth system is based on short term objectives called milestones.

Milestones are represented by certain items from your dead account, such as: bullets, money, rank progress, kills, work experience (car and crime nicks) and bustouts.

This system is developed and implemented with goal to reward activity of users on their rebirth accounts and for not giving up. Another goal is to give you opportunity to have your name on Hall of Fame, even if you died with your first account.

All information regarding this update can be found on [Rebirth system](#) page

*Annoyed by someone on live chat? Too much spam? You can add other gangsters to your **blacklist!** Once added, you won't be able to see messages from that gangster on the **Live Chat**. To add gangsters to blacklist, go to **Chat Settings** on the left menu.*
